

Amit Patjoshi, CEO, Palladium India

Meet Mr. Amit Patjoshi, a distinguished leader contributing to India's journey towards social and economic transformation. With a robust career in renowned firms such as E&Y, KPMG, and PwC, Amit brings over two decades of invaluable experience in government advisory roles, collaborating with prestigious entities like FCDO, IFC, UNDP, World Bank, ADB, USAID, and multiple State Governments in India.

As the CEO of Palladium India, Amit envisions positioning Palladium as the most impactful firm globally, leveraging their unique space in designing, developing, and implementing their projects. His approach prioritizes impact-driven projects, emphasizing the need for hands-on implementation and showcasing tangible results on the ground. With a focus on key sectors including Agriculture, Economic Growth, Climate, Health, and Disaster Risk Management, Amit's aim is to bring about substantial and meaningful changes that are crucial for India and the subcontinent.

Amit is at the helm of a multitude of impactful projects, each leaving a profound mark on society. Palladium is leading the transformation of state road transportation by offering comprehensive project management consultation to Odisha State Road Transport Corporation, with a vision to establish a resilient, contemporary, and secure public transportation network. In the agriculture sector, Palladium is empowering over 600 FPOs by fostering collaborative relationships among stakeholders and bolstering FPO business capabilities through skill enhancement and improved market access. Moreover, the organisation is actively engaged in a life-saving mission through their pivotal role in the Road Safety Initiative of Odisha State Transport Authority. In alignment with their commitment to inclusive economic growth, Palladium is leading the Swakalpa program to foster the development of a thriving micro-entrepreneur ecosystem in Odisha. Palladium's projects aim to empower individuals, enabling them to uplift their communities and contribute to a more inclusive economic landscape. Palladium also provides technical support for the implementation of a Comprehensive Disaster Planning and Management initiative. This is India's first of its kind comprehensive Program covering the Disaster Management lifecycle- Preparedness, Mitigation, Response & Relief, Recovery and Reconstruction.

Under Amit's leadership, Palladium India operates beyond geographical boundaries, prioritizing sustainable growth, and fostering a team-driven environment where employees are motivated by the impact their projects create. Amit's commitment to creating a dynamic workspace encourages a culture of contribution and growth, emphasizing the importance of making a difference in the world.

Amit's Personal Commitment

A passionate advocate for women's empowerment and enterprise development, Amit emphasizes the crucial role of women in climate resilience. By merging these two critical aspects, Amit aims to drive inclusive programs that enable women to become key drivers of societal growth and resilience, utilizing traditional knowledge to create sustainable and impactful solutions.

In essence, Amit Patjoshi stands as a proponent of leveraging traditional wisdom and inclusive development to empower the base of the societal pyramid, enabling substantial change that resonates throughout the entire structure.
